ANNOUNCEMENT CONCERNING PUBLIC FLOAT

The public float of the Company has fallen below 25% of the issued share capital of the Company. The Company is now taking various steps to restore the public float of the Company as soon as possible.

Shareholders and potential investors are advised to exercise caution when dealing in the Shares.

Reference is made to the announcements made by the Company on 22 May 2007 (the “First Announcement”) and 26 June 2007 (the “Second Announcement”) concerning the insufficient public float and 11 July 2007 concerning the unusual movements in the trading volume of the Shares on 11 July 2007 (the “Third Announcement”). Unless the context otherwise requires, terms used herein shall have the same meanings as defined in the First Announcement.

The Board wishes to announce that as at the date of this announcement, the public float of the Company is 15.49%, which has changed from the date of the Second Announcement, falls below 25% of the entire issued share capital of the Company, the Minimum Prescribed Percentage. However, taking into account that the market capitalization of the Shares held by the public is approximately HK\$120.87 million (equivalent to 132,828,000 Shares at HK\$0.91 per Share) as at the date of this announcement, the Company considers that there is an open market in the Shares.

STEPS TAKEN TO RESTORE THE PUBLIC FLOAT

The Board proposed to hold a meeting this week to discuss with the director appointed by Kingboard Group on the issue of public float and the intention of Kingboard Group.

* *For identification purpose only*

The Company is also considering other possible alternatives in case the Company is unable to receive a positive response from Kingboard Group concerning the reduction of its shareholding in the Company. The said alternatives include and are not limited to the placing and issue of new shares of the Company for the purpose of restoring the public float. The Company will issue a further announcement one month from the date of this announcement to keep the Shareholders informed of progress of this matter. No final decision has been made by the Company at this point of time and there is currently no concrete timeframe for resolving the issue.

The Board considers that more time is required for resolving the issue as it is important for the Directors to meet with Kingboard Group to discuss the issue.

The Stock Exchange has stated that it will monitor closely all trading in the Shares to ensure that a false market does not develop and may suspend the trading in the Share if there is any unusual price movement. Shareholders and potential investors are advised to exercise caution when dealing the Shares.

STRICT COMPLIANCE WITH THE 25% PUBLIC FLOAT REQUIREMENT BY THE COMPANY

The Board hereby affirms and clarifies that the Company has all along strictly complied with the 25% public float requirement, as the shareholding of the controlling shareholder was and is well below 75% of the total issued share capital of the Company from the date of listing of the Company till the date of this announcement.

The present failure to comply with the 25% public float arose from the application of Listing Rules to the status of the shareholding of Kingboard Group as not considered as a public shareholder, due to its exceeding of 10% of the total issued capital of the Company.

The Board reiterates that as it was one of the obligations of the Company under the existing bank borrowings that Mr. Cheok has to maintain not less than 51% of the shareholdings in the Company, Mr. Cheok or Inni were not be able to restore the minimum public float by reducing their respective shareholdings in the Company as mentioned in the First Announcement.
