Business Profile

Topsearch International (Holdings) Limited (“Topsearch” or “Company”) and its subsidiaries (“Group”) are principally engaged in the manufacture and sale of a broad range of printed circuit boards (“PCBs”). The Group has a global customer base comprising principally Electronics Manufacturing Services (“EMS”) companies and Original Equipment Manufacturer (“OEM”) which are engaged in the production of a diverse range of products for personal computers (“PC”) and PC-related industries, as well as the telecommunications, office components, security, instrumentation equipment and consumer products industries.

Chairman's Statement

FINANCIAL PERFORMANCE

The trend in reducing world-wide demand for personal computers led to reduction in the demand for their ancillary parts and equipment including Hard Disk Drives, which had been the Group's major products supplied to our customers, leading to a substantial reduction of our revenue for the year ended 31 December 2013. Therefore, the Group had just been able to achieve sales turnover of about HK\$720 million for the year ended 31 December 2013, representing a decrease of approximately 12% as compared to the same of last year. Operating loss before interest and tax was approximately HK\$71 million during the year of 2013, as compared to operating profit before interest and tax of approximately HK\$129 million in 2012. Loss attributable to shareholders amounted to approximately HK\$94 million, as compared to profit attributable to shareholders of approximately HK\$94 million in 2012. Basic loss per share was 9.04 Hong Kong cents, as compared to earnings per share of 10.21 Hong Kong cents in 2012.

BUSINESS REVIEW

The Group is principally engaged in the manufacture and sale of a broad range of printed circuit boards ("PCB") during the year of 2013.

The Group's sales turnover had been further decreased by approximately 12% from about HK\$817 million in 2012 to about HK\$720 million in 2013. However, the Group's gross profit had been increased from about HK\$12.2 million in 2012 to about HK\$99.0 million in 2013 with the gross profit margin increased from approximately 1.5% in 2012 to approximately 13.7% in 2013.

Reference is made to the announcement of the Company dated 16 November 2012 and the circular dated 29 November 2012 (for details, terms and expressions unless otherwise stated herein, please refer to the aforesaid announcement and circular) announcing that on 13 November 2012, Topsearch HK, a wholly-owned subsidiary of the Company, entered into the Framework Agreement with Shenzhen Fantasia and Shanghai Yuxing ("Transferees"), pursuant to which Topsearch HK had conditionally agreed to sell and transfer an aggregate of 70% equity interest in Topsearch Shenzhen to the Transferees for a consideration of RMB244,910,000 (approximately HK\$301,239,000). In the meantime, Topsearch HK and the Transferees entered into (i) an equity transfer agreement to implement the Disposal ("Equity Transfer Agreement") and (ii) a joint venture contract regarding the governance of Topsearch Shenzhen after Completion ("JV Contract"). After Completion, the Group will continue to hold a 30% interest in Topsearch Shenzhen, which will be accounted for as an associate. Subsequently, on 18 December 2012, a special general meeting ("SGM") of the Company had been held where an ordinary resolution which had been proposed and contained in the SGM notice had been unanimously passed by the Company's shareholders who attended the SGM to confirm, approve and ratify the terms of the Framework Agreement and the transactions and agreements contemplated therein, and all acts done and things executed in relation thereto.

Chairman's Statement

The abovesaid relevant Transfer had been duly approved by the governing authorities in Shenzhen before the end of year 2012 whilst the cash consideration in relation thereto had been fully received by the Group in March 2013.

Furthermore, reference is also made to the announcements of the Company dated 31 December 2010, 4 January 2012, 23 August 2012 and 31 December 2013 respectively (for details, terms and expressions unless otherwise stated herein, please refer to the aforesaid announcements). On 21 March 2012, the Supervisor (Tongliao Economic Technology Development Regional Management Committee) issued a letter of commitment to the Vendor (Topsearch Printed Circuits (Tongliao) Limited), pursuant to which the Supervisor had committed to provide RMB31 million to the Purchaser (Tongliao Xutong Solar Technology Company Limited) for the settlement of the Remaining Balance in three installments before the end of year 2012. Subsequently, on 26 April 2012, the Vendor entered into the Chinese Supplement Agreement with both the Purchaser and the Supervisor. Though a further sum of RMB10 million had been received from the Supervisor after the signing of the afore-mentioned Chinese Supplement Agreement, the Remaining Balance amounting to RMB21 million had not yet been settled by the Purchaser as per what the Supervisor had committed and was still outstanding as at 31 December 2013.

During the first quarter of the year 2014 and prior to the publication of this report, the management of the Company had approached both the Supervisor and the Purchaser again and tried to obtain a fairly firm payment schedule in respect of such Remaining Balance from the parties concerned. Though there was no new commitment agreed by the relevant parties during the aforesaid period on the relevant timeline for the ultimate settlement of such Remaining Balance to be made by this current year of 2014, the Company had not received any indication from either party that the original Property Assignment Agreement signed on 31 December 2010 should be terminated or revoked. In the meantime, the Company does not have the intention of terminating the abovesaid transaction and forfeiting the deposit of RMB5 million as provided under the Property Assignment Agreement should the Purchaser fail to pay the Remaining Balance according to the stipulated time frame. The Company's bargain dialogue with both the Supervisor and the Purchaser will be continued in the next few months and the management of the Company still has confidence that the completion of this property disposal in respect of the abovesaid transaction can be accomplished eventually though a fixed deadline is still not available. Further announcement will be made for any results of the said negotiation with both the Supervisor and the Purchaser or further progress on the transaction.

Chairman's Statement

To improve the Group's financial position progressively, the Group has been implementing various sales strategies to increase the sales turnover and profit margins of its products. The Group shall continue to enhance its marketing efforts to expand its market coverage and will further improve its product mix and plan to develop new products so as to widen its market coverage. The relocation of the production facilities and headcount from the Shenzhen plant to Shaoguan plant of the Group had been completed during the year of 2013. The Group has been taking various cost control measures to tighten the costs of operations and various general and administrative expenditure.

The Group had repaid a total of RMB180 million to China Construction Bank Shaoguan Branch ("CCB-SG") in March 2013 following the receipt of cash consideration attributable to the disposal of 70% equity interest in Topsearch Shenzhen. CCB-SG has committed to provide the same facility amount of totally RMB300 million to the Group's Shaoguan subsidiary providing that the Group should have adequate security charges in place for securing both the existing facility and the new facility (which will become effective in the next 12 months starting from June 2013).

Same as previous years, a controlling shareholder of the Company has continued to maintain a total advance of approximately HK\$102 million to the Group and would promise to continue providing additional financial support throughout the whole year of 2014 for financing the working capital of the Group when needed.

PROSPECTS

Revenue of the Group for the second half of year 2013 had seen a slight decrease comparing with the first half, and this further substantiated that the continuous sluggishness in the PC market during the second half of the year had finally taken a toll in the Hard Disk Drives (HDD) market, which the Group has been heavily depending on for years.

Lately, there is a consensus that the HDD market will continue to stagnate for the next 24 months although aggregate revenue might not drop substantially, thanks to the growth of the Enterprise sector mitigating the shrink in the PC/Consumers sector. However, as the demand for units of PCBs in the Enterprise sector is expected to be much less than the PC/Consumers sector, this would definitely create an impact to the total demand of PCBs in our industry.

For the past 18 months or more, the Group was in a process of re-structuring our reliance on the HDD market to other markets such as Automotive, Domestic Appliances and Telecommunication etc. During the first quarter of 2014, we have seen a lot of orders deriving from various new customers in these sectors, and hopefully such will continue to solidify by the end of the second quarter. The Group is confident that our efforts will eventually pay off so that our performance will be more steady and improved.

Chairman's Statement

APPRECIATION

On behalf of the Board, I would like to extend our gratitude and sincere appreciation to all management and staff members for their diligence and dedication, and also to our business partners and the Company's shareholders for their continuing support.

On behalf of the Board

Cheok Ho Fung

Chairman and Chief Executive Officer

Corporate Governance Report

CODE ON CORPORATE GOVERNANCE PRACTICES

The Board and the senior management of the Company are of the opinion that during the year 2013, the Company has properly operated in accordance with the "Corporate Governance Code and Corporate Governance Report" ("CG Code") which sets out (a) code provisions (which are expected to comply with); and (b) recommended best practices (which are for guidance only) in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Stock Exchange") ("Listing Rules"). The Company has complied with the code provisions and some of the recommended best practices of the CG Code for the period from 1 January 2013 to 31 December 2013 except for one deviation of code provisions as stated in the section headed "Compliance with CG Code" below.

The Board is committed to the principles of transparency, accountability and independence highlighted by the CG Code to better enhance the Company's shareholders' value and proper management of corporate assets in the following ways:

1. ensuring the decision-making process, risk management process, internal audit and controls, disclosure of information and the communication with stakeholders are carried out in accordance with good management practices and compliance with the respective regulatory standards;
2. cultivating a culture of integrity, transparency and accountability for the Company, its staff and Directors and emphasising the importance of their roles in such an environment; and
3. adopting quality standards widely recognised to foster quality management in every aspect of daily operations to enhance the performance and value of the Company as a whole.

COMPLIANCE WITH CG CODE

The Directors confirm that, for the financial year ended 31 December 2013, the Company has complied with the code provisions set out in the CG Code contained in Appendix 14 of the Listing Rules save for the deviation mentioned below:

Mr. Cheok Ho Fung is the Chairman as well as the Chief Executive Officer of the Company. This arrangement deviates from the provision of A.2.1 of the CG Code, which provides that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive officer should be clearly established and set out in writing.

The Directors are of the opinion that the current arrangement will provide stronger leadership of the management for the Group and enable effective business planning. The Directors believe that it does not have a material adverse impact on the corporate governance of the Company.

The Board will carry out a regular review and propose any amendment, if necessary, to ensure compliance with the CG Code provisions as set out in the Listing Rules.

Corporate Governance Report

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS (“MODEL CODE”)

The Company has adopted its own code of conduct (“Own Code”) regarding securities transactions by Directors on 7 April 2005 and was revised by the Directors on 10 September 2009 and 26 March 2013 respectively on terms no less exacting than the required standard set out in the Model Code.

The Company, having made specific enquiries, confirms that members of the Board have complied with the Own Code throughout the year 2013. Members of the Company’s senior management, who, due to their positions in the Company, are likely to be in possession of inside information, have also complied with the provisions of the Own Code.

The updated Own Code has been uploaded on the website of the Company.

THE BOARD OF DIRECTORS

As at the date of the publication of this annual report, the Board consists of six Directors, with a variety and a balance of skills and experience in accounting, manufacturing, marketing, finance, investment and legal professions. Their brief biographical particulars are set out on pages 48 to 53 of this annual report. List of Directors and Their Role and Function which sets out the members and composition of the Board has been uploaded on the Stock Exchange’s website and the Company’s website.

Members of the Board and their respective attendance to Board meetings and general meetings held during the year ended 31 December 2013 are as follows:

Name of Directors	Number of attendance at Board meetings	Number of attendance at general meetings

Mr. Wong Wing Kee	4/4	1/1
Mr. Ng Kee Sin	4/4	1/1

Corporate Governance Report

The number of Board meetings held during the year ended 31 December 2013 was four.

The number of general meetings held during the year ended 31 December 2013 was one.

The Company has maintained the minimum requirements of the Listing Rules as to the number of Independent Non-executive Directors as three and, one of whom has accounting and related financial management expertise. They have dedicated to provide the Company with professional advice with respect to the steady operation and development of the Company. They also exercised supervision and coordination to safeguard interests of the Company and its shareholders. The existing Independent Non-executive Directors represent at least one-third of the Board.

Each Independent Non-executive Director has provided an annual confirmation of independence to the Company pursuant to Rule 3.13 of the Listing Rules. Based on such annual confirmation received from each of the Independent Non-executive Directors, the Company considers that all Independent Non-executive Directors are considered to be independent for the purpose of Rule 3.13 of the Listing Rules.

Mr. Leung Shu Kin, Alfred, an Independent Non-executive Director, who is currently an executive director and equity partner of Elegance Printing Group, the printer of the Company, who has business relationship with the Company. Mr. Leung was and is considered to be independent by the Company because his business dealings with the Group was considered not to be material.

There is no relationship (including financial, business, family or other material/relevant relationship(s)), between members of the Board and in particular, between the Chairman and the Chief Executive Officer save as disclosed below:

1. Mr. Cheok Ho Fung is the Chairman as well as the Chief Executive Officer of the Company. The role of the Chairman and Chief Executive Officer are not segregated and are exercised by the same individual. The reason had been explained under the section headed "Compliance with CG Code" in this annual report. Mr. Cheok Ho Fung is the father of Mr. Cheok Lup Yin, Eric, an assistant to the Chief Executive Officer of the Company and directors of various subsidiaries of the Company;
2. Mr. Leung Shu Kin, Alfred, an Independent Non-executive Director, who is currently an executive director and equity partner of Elegance Printing Group, the printer of the Company, who has business relationship with the Company as mentioned above;
3. Mr. Ng Kwok Ying, Alvin, a Non-executive Director, who is currently a senior partner of Ng and Partners, Solicitors, who has business relationship with the Company. The Board considers that the Group's business dealings with Ng and Partners, solicitors was not material.

Corporate Governance Report

All existing Non-executive Directors have signed letters of appointment with the Company for a term of not more than three years, and will be subject to retirement by rotation and re-election at the annual general meeting of the Company pursuant to the Bye-laws of the Company and the requirements of the Listing Rules.

The remuneration of Non-executive Directors will be reviewed by the Remuneration Committee of the Company and will be fixed from time to time by the Board subject to the authority granted pursuant to the Company's Bye-laws by the shareholders at the Company's general meetings.

NOMINATION COMMITTEE

The Company's Nomination Committee performs the following roles and functions in accordance with its nomination procedures and criteria as follows and in accordance with its terms of reference and its written nomination policy adopted by the Board:

- determining the policy for the nomination of Directors during the year;
- adopting the nomination procedures and the process and criteria to select and recommend candidates for directorship by considering the candidates' past performance and experience, academic and working qualifications, general market conditions in accordance with the requirements set out in the Listing Rules and the Company's Bye-laws so as to make the composition of the Board filled with a variety and a balance of skills and experience;

Corporate Governance Report

3. reviewing regularly the roles of Directors by considering the issues of conflict of interest, their performance and conduct;
4. reviewing regularly the nomination policy and board diversity policy of the Company to ensure the effectiveness of these policies and to review any progress on achieving those objectives in these policies; and
5. assessing the independence of Independent Non-executive Directors.

During the year ended 31 December 2013, the Nomination Committee had met once and discussed and reviewed (i) the retiring Directors to be re-elected at the 2013 annual general meeting of the Company; (ii) the independence of the Independent Non-executive Directors; (iii) the terms of appointment of Directors; (iv) the structure, size and composition (including the skills, knowledge and experience) of the Board; (v) the role, performance and conduct of the existing Directors (including but not limited to the issues on any conflict of interest); (vi) any nomination of potential candidate in place of the resigned Director(s) to the Board; and (vii) the nomination policy of the Company (with reference to its terms of reference and Listing Rules).

As at the date hereof, the members of the Nomination Committee are Mr. Wong Wing Kee (Independent Non-executive Director) (Chairman), Mr. Leung Shu Kin, Alfred (Independent Non-executive Director) and Mr. Tang Yok Lam, Andy (Non-executive Director). All members are Non-executive Directors and the majority of whom are Independent Non-executive Directors.

The attendance record of each member of the Nomination Committee at its meeting is set out below:

Members of Nomination Committee	Attendance

Mr. Leung Shu Kin, Alfred (<i>Member</i>) (<i>Independent Non-executive Director</i>)	1/1
Mr. Tang Yok Lam, Andy (<i>Member</i>) (<i>Non-executive Director</i>)	1/1

Under the CG Code provision A.4.2, every Director should be subject to retirement by rotation at least once every three years. The Bye-laws of the Company has provided that at each annual general meeting one-third of the Directors for the time being (or, if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation such that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years.

Corporate Governance Report

EXECUTIVE COMMITTEE

The Executive Committee of the Board meets regularly and operates with overall delegated authority from the Board. The Executive Committee reports through the Chairman to the Board. The Executive Committee carries out the following tasks for the purposes of dealing with the affairs relating to the day-to-day operations of the Group:

1. determining group strategy;
2. setting targets for the management;
3. reviewing business performance;

CORPORATE MANAGEMENT AND INTERNAL CONTROL

The Board established a Whistleblowing Policy on 27 March 2012 which deals with and governs properly and fairly concerns raised by the Company's employees about any suspected malpractice or misconduct regarding financial reporting, internal control or other matters within the Company and the Group. The Company's Audit Committee shall review regularly this Policy and ensure that arrangements are in place for independent and fair investigation of these matters and for appropriate following-up action.

The responsible teams of different sections or departments within the Group under corporate governance function play a major role in monitoring the internal corporate governance of the Group. They have unrestricted access to the information that allow them to review all aspects of the Group's risk management and governance processes in connection with nature of compliance and legal requirements. It also has the power to consult the Audit Committee without reference to the Company's management.

Internal Audit Activities:

Internal audit activities are undertaken by the responsible teams under corporate governance function. Under the cross-functional work relationship, the teams conduct periodic review of the practices, procedures and internal controls of all business and support units within the Group. The relevant Board Committees may request the responsible teams to conduct ad-hoc reviews or investigation in relation to all types of business operations of the Group if needed, and to report back the review or investigation results to the Board Committees.

Corporate Governance Report

The management systems for occupational health, safe environment and quality standards are set up. The perfection of the internal control system is properly established and the Board and the Company's senior management have paid significant attention to it. The aim of undertaking the internal audit activities by the responsible teams is to govern the overall system establishment and comprehensive perfection in corporate internal control. Key tasks of the responsible teams in this internal audit function include:

1. unlimited authority of access to review different aspects of the Group's business activities and internal control procedures;
2. regular performance of the comprehensive audit of the working procedures, practices, expenses, investment, asset management of the special business unit and the Group;
3. special reviews and investigations for ad-hoc projects; and
4. liaison with the Company's senior management and reporting to the Company's Audit Committee and the Board on the effectiveness and efficiency of the Group's management and the assurance against material financial misstatements.

Internal Control:

The Board holds full responsibility for the system of internal control of the Group and continuously reviews its effectiveness from time to time. The responsible teams participating into the internal audit activities as aforementioned perform investigation of the effectiveness of material processes and controls on a risk-based approach in accordance with the provisions on internal controls as set forth in the CG Code. The findings are reported to the Company's Audit Committee. The Board, through the Audit Committee, has at least annually reviewed the effectiveness of the system of internal control of the Group for the year ended 31 December 2013. The review had covered all material controls, including financial, operational and compliance controls and risk management functions of the Group. The Board via annual review considers the internal control systems (including but not limited to the resources, qualifications and experience of staff of the Group's accounting and financial reporting function, its training programmes and budget) is effective and adequate.

The Board has implemented procedures and internal controls for the handling and dissemination of inside information. During the year of 2013, the Company has adopted the inside information policy which aims to set out guidelines to the Group's directors, officers and all relevant employees to ensure inside information (as defined below) of the Company is to be disseminated to the public in equal and timely manner in accordance with the applicable laws and regulations. The term "relevant employee" refers to employee of the Group, because of his office or employment, who is likely to be in possession of the unpublished inside information (as defined below). The above mentioned persons are also recommended to make reference to the "Guidelines on Disclosure of Inside Information" issued by the Securities and Futures Commission ("SFC") in June 2012.

Corporate Governance Report

Under the new Part XIVA of the Securities and Future Ordinance (“SFO”), Chapter 571 (“Part XIVA”) which has been effective on 1 January 2013, inside information is the specific information about the Company, its shareholder or officer or its listed securities or derivatives, which is not generally known to the persons who are accustomed, or would be likely, to deal in the Company’s listed securities but would, if generally known to them, be likely to materially affect the price of the Company’s listed securities.

OPERATION RISKS

The Group has implemented appropriate policies and procedures for all major operations. In particular, the Company’s management closely monitors the procurement process and performs due diligence check on the vendors. The In Process Quality Assurance Department and Reliability Department ensure the stability of the manufacturing process and control products quality. The Group also strives to promote human resources reforms and comprehensively enhances cost management. By establishing clear policies and requiring well-documented business process, the exposure to operation risks is considered minimal.

INVESTOR RELATIONS AND COMMUNICATION

The Board established a shareholders’ communication policy on 27 March 2012 for maintaining an on-going dialogue with the Company’s shareholders and other stakeholders and encouraging them to communicate actively with the Company. This policy sets out the principles of the Company in relation to shareholders’ communications, with the objective of ensuring that its communications with the Company’s shareholders and other stakeholders (including potential investors) with ready, equal and timely access to balanced and understandable information about the Company (including its financial performance, strategic goals and plans, material developments, governance and risk profile), in order to enable the Company’s shareholders and other stakeholders to exercise their rights in an informed manner mainly through the Company’s corporate communications (such as interim and annual reports, announcements and circulars, notices of meetings, proxy forms and listing documents), annual general meetings and other general meetings, as well as disclosure on the website of the Company.

Interim reports, annual reports and circulars and associated explanatory documents etc are sent to the Company’s shareholders and are also posted on the Stock Exchange’s website (www.hkex.com.hk) and the Company’s website (www.topsearch.com.hk) under a dedicated “Investor Relations” section as soon as practicable in plain language and in both English and Chinese versions or where permitted, in single language, and will be updated on a regular basis and in a timely manner. The Company’s website provides its shareholders with the corporate information, such as principal business activities, the development of corporate governance and the corporate social responsibilities of the Group such as environmental protection, etc.

Corporate Governance Report

The Company's shareholders are provided with contact details of the Company, such as telephone hotline, fax number, email address and postal address (as indicated below), in order to enable them to make any query that they may have with respect to the Company. They can also send their enquiries to the Board through these means. In addition, the Company's registered shareholders can contact Tricor Tengis Limited, the Company's Hong Kong Branch Share Registrar and Transfer Office, if they have any enquiries about their shareholdings and entitlements to dividend.

The Company will not normally deal with verbal or anonymous enquiries. However, its shareholders may send their enquiries to the following in respect of the Company:

The Company's registered shareholders should direct their enquiries about their shareholdings and entitlement to dividend to the Company's Hong Kong Branch Share Registrar and Transfer Office, Tricor Tengis Limited, through the online holding enquiry service at www.tricoris.com or by email to is-enquiries@hk.tricorglobal.com or hotline at (852) 2980 1333 or in person at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong.

The Company's general meeting allows the Directors, its members of the Audit, Remuneration and Nomination Committees respectively and its external auditor to meet and communicate with its shareholders and to answer shareholders' questions. The Company will ensure that its shareholders' views can be communicated to the Board. For each substantially separate issue at a general meeting, a separate resolution should be proposed by the chairman of that meeting, for instances, nomination of persons as Directors by means of a separate resolution. The Procedures for Shareholders to Propose a Person for Election as a Director of the Company has been uploaded on the website of the Company in the section "Corporate Governance" under "Investor Relations" section.

Corporate Governance Report

The proceedings of general meeting are reviewed from time to time to ensure that the Company follows good corporate governance practices. Notice of an annual general meeting (whether for the passing of a special resolution and/or an ordinary resolution) shall be called by not less than twenty business days' notice or twenty-one days' notice (whichever is longer) in writing at the least and a special general meeting called for the passing of a special resolution shall be called by twenty-one days' notice in writing at the least, and a general meeting of the Company (other than an annual general meeting or a meeting for the passing of a special resolution) shall be called by ten business days' notice or fourteen days' notice (whichever is longer) in writing at the least (whereas the notice shall be exclusive of the day on which it is served or deemed to be served and of the day for which it is given), and the accompanying circular also sets out details of each proposed resolution and other relevant information as required under the Listing Rules.

The chairman of the general meeting exercises his power under the Company's Bye-laws to put each proposed resolution to the vote by way of a poll, save for the resolutions (if any) proposed by the chairman of the meeting regarding the approval on the procedural and administrative matters as defined in the Listing Rules. The procedures for demanding and conducting a poll are explained at the general meeting prior to the polls being taken. The Company's shareholders who are entitled to attend and vote at a general meeting are entitled to ask about the poll voting procedures and details of the proposed resolutions at the general meeting whose questions should be answered during the general meeting prior to the conduction of poll voting. Announcement on poll voting results of general meeting will be posted on the Stock Exchange's website and the Company's website.

During the year of 2013, there was no significant change in the Company's Memorandum of Association and Bye-laws, whereas both of which have been uploaded on the Stock Exchange's website and the Company's website.

The Company continues to commit to a proactive policy of promoting investor relations and effective communication with the Company's shareholders and analysts by maximizing the use of the Company's website (www.topsearch.com.hk) as a channel to disclose the Company's updated information and corporate communications to the Company's shareholders, stakeholders and the public on a timely basis.

Shareholders Rights

The Directors, pursuant to Bermuda Companies Act and notwithstanding anything in the Company's Bye-laws shall, on the requisition of the Company's shareholders holding at the date of the deposit of the requisition not less than one-tenth of such of the paid-up capital of the Company as at the date of the deposit carries the right of voting at general meetings of the Company, forthwith proceed duly to convene a special general meeting of the Company.

The requisition must state the purposes of the general meeting, and must be signed by the requisitionists and deposited at the Company's principle place of business in Hong Kong, and may consist of several documents in like form each signed by one or more requisitionists.

Corporate Governance Report

If the Directors do not within twenty-one days from the date of the deposit of the requisition proceed duly to convene a general meeting, the requisitionists, or any of them representing more than one half of the total voting rights of all of them, may themselves convene a general meeting, but any general meeting so convened shall not be held after the expiration of three months from the said date.

A general meeting convened by the requisitionists shall be convened in the same manner, as nearly as possible, as that in which general meetings are to be convened by Directors.

Either any number of the Company's shareholders representing not less than one-twentieth (1/20) of the total voting rights of all its shareholders or not less than 100 Company's shareholders, on the requisition in writing of such number of the Company's shareholders (at the expense of the requisitionists), can put forward any proposed resolution to the Company's shareholders at the Company's general meeting by circulating to them any statement of not more than 1,000 words with respect to the matter referred to in the proposed resolution or the business to be dealt with at that general meeting. This should be served at the same time as notice of the general meeting or as soon as practicable thereafter.

Any reasonable expenses incurred by the requisitionists by reason of the failure of the Directors duly to convene a general meeting shall be repaid to the requisitionists by the Company.

DIRECTORS' RESPONSIBILITY IN RESPECT OF FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements of the Group on a going concern basis, with supporting assumptions or qualifications as necessary, for each financial period which give a true and fair view of the financial affairs of the Group.

Environmental, Social and Governance Report

The Board believes that a sound environmental, social and governance structure is vital for continued sustainability and development of the Company. In addition to business growth, the Company has been pursuing excellence in environmental protection, social responsibility, and governance areas. Meanwhile, the Company also wishes to enhance its transparency to achieve and uplift the sense of social caring and responsibility amongst various stakeholders. With reference to its own experience and practice, the Company primarily adopts the principles and basis of Environmental, Social and Governance Reporting Guide set out in Appendix 27 to the Listing Rules as its standards, with an aim to establish a sound environment, social and governance structure.

As the first Environmental, Social and Governance Report published by the Company, this report is a review of its performance in environment, social and governance areas, which sets out the Company's policies and practices in four aspects namely environmental protection, working environment, supply chain management, and community involvement for the period from 1 January 2013 to 31 December 2013. This report is designed to allow shareholders, investors (including potential investors) and the public to have a more comprehensive and profound understanding of the Company's corporate governance and culture. The Company is willing to take more responsibilities for the society but with a view to balancing the shareholders' interests and the society's benefits.

ENVIRONMENTAL PROTECTION

Environmental Policy

Traditionally, the manufacture of PCBs is classified as a pollution industry. In view of it, the Company pledges to uphold quality management and implement policies for conserving resources and managing waste. The Company has established the following policies in compliance with environmental regulations:

1. During the stage of design, research and development, environmental impact assessment for each material or machinery is conducted prior to any purchase decision. Accordingly, such impact assessment data is considered as one of the key criteria for procurement decisions.
2. During production, consumption, delivery and waste disposal, the Company undertakes environmental protection measures through technological enhancement, usage of recycling materials and conservation of resources. Besides, minimum environmental impact approach and systematic recycling methods are employed to best protection to the environment as well as the ecosystem.
3. The Company commits to fulfill and comply with national and regional environmental protection regulations and establishes self-regulating frameworks and standards accordingly.

Environmental, Social and Governance Report

4. Awareness for environmental protection of all employees is enhanced through environmental protection activities, training program and promotion. The concept of "Reduce", "Reuse", "Recycle" are heavily promoted. By promoting them, the Company is striving to protect the environment as well as contributing back to the society.
5. Top management of the Company is acting as a core for establishing a well-defined structure and system for environmental management by outlining corresponding responsibility, scope and policy. Besides, this environmental protection policy is always given first priority, overriding production needs wherever necessary.
6. The Company always keeps track of the development of international environmental protection legislation and ensures its environmental policy is implemented not only to comply with international standards, but also to ensure it is at the same pace as worldwide counterparts.

Environmental Research Projects

Since 2001, the Company has started sponsoring Tsinghua University (one of the top research and education institutions in China) for the establishment of the "Tsinghua Topsearch R&D Centre of Green Manufacturing" to achieve the following:

1. Conduct Green Manufacturing Research; and
2. Organise and promote Green Education.

Major subjects for research include:

1. Green Assessment System;
2. Green Design Theory and Methods;
3. Recycle and Reuse Technology of PCBs;
4. Energy Consumption Management;
5. Green Education for Manufacturing and Industrial Ecology; and
6. Green Manufacturing Website.

Environmental, Social and Governance Report

The Company has been playing a significant role in taking the Green Technologies on to the next level. It is looking forward to sharing these future technologies and is confident that a better and healthier environment can be built.

RoHS Standard and Lead-Free Production

As one of the leading companies in the PCBs industry, environmental protection is always one of the focused areas of the Company. The Company has been complying with “Restriction of the use of certain Hazardous Substances” (“RoHS Standard”). The RoHS Standard requires electronic manufacturing companies to use the minimum hazardous substances, such as lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers, which are dangerous to our environment. The RoHS Standard enables our products which are produced under environmental friendly. Apart from meeting the RoHS Standard, the Company is also using halogen-free materials because halogen compound is dangerous to the ozone.

The Company has already used lead-free surface finishing production such as Organic Solderability Preservative (OSP) and Electroless Nickel Immersion Gold (ENIG), which enable our product surfaces to be lead-free. As one of the Company’s long term strategies, we will continue to invest on new lead-free technology. Recently, we have invested on Immersion Silver and Immersion Tin machines, which provide better lead-free finishing production along the manufacturing lines.

In future, the Company will keep sourcing new RoHS compliance materials and lead-free surface finishing alternatives to achieve better environmental protection and provide more choices for customers.

Emissions

The Company adopts the following policy and measures for monitoring various emissions to be arisen out of the PCBs production:

1. Waste water discharge complies with the phase two level (three requirements) of the Discharge Standard of Water Pollutant in Guangdong (DB44/26-2001); exhaust gas emission complies with the phase two level (two requirements) of the Emission Limit of Air Pollutants (DB44/27-2001).
2. Hazardous wastes are collected, stored, transferred, reused and timely registered with the solid waste management platform of Guangdong Province as required to file the transfer of hazardous wastes in accordance with the requirements of the national regulation on the management of hazardous wastes.
3. Internal carbon-emission inspection and audit in relation to greenhouse gas emission were commenced in compliance with the standards of ISO14064.

Management Discussion and Analysis

FINANCIAL REVIEW

During the year under review, the Group's turnover decreased by 12%. Overall, the Group's gross margin increased from 1.5% in 2012 to 13.7% in 2013.

LIQUIDITY AND FINANCIAL RESOURCES

The Group generally finances its operations through a combination of internally generated cash flows, shareholders' equity and borrowings from banks.

As at 31 December 2013, the Group had total equity of HK\$553 million (31 December 2012: HK\$623 million) and net debt (trade payables, other payables and accruals, interest-bearing bank loans, amount due to an associate, obligation under finance lease, shareholder's loan less cash and cash equivalents) of HK\$389 million (31 December 2012: HK\$745 million), representing a gearing ratio, defined as net debt over total equity plus net debt, of 41% (31 December 2012: 54%).

The Group's net current liabilities of HK\$40 million (31 December 2012: HK\$6 million) consisted of current assets of HK\$332 million (31 December 2012: HK\$700 million) and current liabilities of HK\$372 million (31 December 2012: HK\$706 million), representing a current ratio of 0.89 (31 December 2012: 0.99).

As at 31 December 2013, the Group's current assets consisted of HK\$86 million (31 December 2012: HK\$64 million) held as cash and cash equivalents, of which 3% was in Hong Kong dollars ("HKD"), 68% was in US Dollars ("USD"), 28% was in Renminbi ("RMB") and 1% in other currencies.

The Group's current assets also consisted of HK\$126 million (31 December 2012: HK\$144 million) as trade receivables from its customers. Debtors turnover days increased to 68 days (31 December 2012: 67 days).

As at 31 December 2013, the Group's inventories decreased to HK\$92 million (31 December 2012: HK\$119 million). Inventory turnover days was 62 days (31 December 2012: 67 days). Trade payables decreased to HK\$156 million from HK\$179 million in 2012. Creditors turnover days was approximately 98 days (31 December 2012: 80 days).

Management Discussion and Analysis

INTEREST-BEARING BORROWINGS

As at 31 December 2013, the Group had the interest-bearing borrowings as follows:

	31 December 2013 HK\$'000	31 December 2012 HK\$'000
Amounts payable:		
Within one year	103,009	385,174
In the second year	103,322	104,815
In the third to fifth years, inclusive	391	—
	206,722	489,989
<i>Less: Portion classified as current liabilities</i>	103,009	385,174
Portion classified as non-current liabilities	103,713	104,815

Of the total interest-bearing borrowings, HKD denominated loans accounted for 46% (31 December 2012: 19%), USD denominated loans accounted for 32% (31 December 2012: 34%) and the 22% balance was RMB denominated loans as at 31 December 2013 (31 December 2012: 47%).

Bank loans of approximately HK\$63,088,000 (31 December 2012: HK\$160,174,000) carried floating interest rates and the effective interest rates ranged from 2.51% to 3.55% (31 December 2012: ranged from 1.66% to 4.07%) per annum. The remaining bank loans carried fixed interest rate at 6.0% (31 December 2012: 6.31%) per annum. The Board does not recognise a significant seasonality of borrowing requirements.

The bank loans and other banking facilities of the Group are secured by:

- (i) certain buildings and payments for leasehold land held for own use under operating leases held by the Group; and
- (ii) the assignment of trade receivables of a subsidiary of the Group.

Management Discussion and Analysis

There are shareholder's loans advanced by Mr. Cheok Ho Fung, an Executive Director, Chairman of the Board, Chief Executive Officer and a controlling shareholder of the Company at the effective interest rate of 7% per annum (2012: 7%). This financial assistance provided by Mr. Cheok Ho Fung as a connected person (defined in the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Stock Exchange") ("Listing Rules")) is a connected transaction. However, it is exempt from the reporting, announcement and independent shareholders' approval requirements pursuant to rule 14A.65(4) of the Listing Rules because this financial assistance provided by the abovesaid connected person is for the benefit of the Company on normal commercial terms (or better to the Company) where no security over the assets of the Company or its subsidiaries is granted in respect of the financial assistance.

FOREIGN EXCHANGE EXPOSURE

Sales of the Group's products are principally denominated in USD and the purchases of materials and payments of operational expenses are mainly denominated in USD, HKD and RMB. Approximately 47% and 82% of the Group's purchases and expenses, respectively, are denominated in RMB. As the Group imported a substantial portion of its major and important raw materials and machines from overseas which were non-RMB denominated, this would help to mitigate the overall effects arising from RMB appreciation.

As at 31 December 2013, the Group has not entered into any financial instrument for hedging purpose. Nevertheless, the Board will continue to monitor foreign exchange exposure in the future and will consider hedging such exposure to minimize exchange risk should the need arise.

MATERIAL ACQUISITIONS OR DISPOSALS

Save as disclosed in the paragraphs under the sub-section headed "Business Review" in the section headed "Chairman's Statement" on pages 4 to 6 of this annual report about various disposals by the Group, the Group neither held any significant non-consolidated investments nor underwent any material acquisitions or disposals of subsidiaries and associates during the year of 2013.

NUMBER AND REMUNERATION OF EMPLOYEES

As at 31 December 2013, excluding the associate, the Group had approximately 2,115 employees (31 December 2012: 2,984). For the year ended 31 December 2013, our total staff costs amounted to HK\$174 million (31 December 2012: HK\$217 million). Under the Group's remuneration policy, employees are rewarded in line with market rate and in compliance with statutory requirements of all jurisdictions where it operates. Employees are also granted discretionary bonus subject to the individual's performance and business results of the Group.

Management Discussion and Analysis

The Company previously operated a share option scheme for the purpose of providing incentives and rewards to eligible participants including any employees of the Group. However, as at 31 December 2013, no share options were outstanding under the scheme because the share option scheme, which life was 10 years from its date of adoption on 30 May 2002, had already been expired on 30 May 2012. The Board considered that a new share option scheme may only be adopted in future at the time the Directors think favourable to the Company to do so.

The Group follows a policy of encouraging its subsidiaries to send their staff to attend training classes or seminars that are related directly or indirectly to the Group's businesses.

CAPITAL COMMITMENTS

As at 31 December 2013, the Group's capital commitments contracted but not provided for amounted to HK\$6 million (31 December 2012: HK\$3 million) and there was no capital commitment authorised but not contracted for (31 December 2012: Nil). All of these capital commitments were related to construction of factory buildings and acquisition of plant and machinery.

OTHER COMMITMENTS

As at 31 December 2013, the Group's capital contribution committed to the wholly-owned subsidiary established in the PRC amounted to HK\$9 million (31 December 2012: HK\$287 million), which represented an investment in a subsidiary in Shaoguan, Guangdong Province of the PRC, and to be paid up by December 2014.

DIVIDEND

The Directors do not recommend the payment of any dividend for the year ended 31 December 2013 (2012: HK\$Nil).

CLOSURE OF REGISTER OF MEMBERS

The register of Members of the Company will be closed from 4 June 2014 (Wednesday) to 6 June 2014 (Friday), both days inclusive. In order to qualify for the attendance of the forthcoming annual general meeting of the Company to be held on 6 June 2014 (Friday), share transfer forms accompanied by relevant share certificates must be lodged with the Company's Branch Share Registrar and Transfer Office in Hong Kong, Tricor Tengis Limited, Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong, not later than 4:30 p.m. on 3 June 2014 (Tuesday).

SHARE CAPITAL AND SHARE OPTIONS

Details of movement in the Company's issued share capital for the year ended 31 December 2013 are set out in note 32 to the consolidated financial statements.

There was no movement in the Company's share options during the year because the Company's share option scheme has been expired on 30 May 2012.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Bye-laws which would oblige the Company to offer new shares on a pro rata basis to its existing shareholders though there are no restrictions against such rights under the laws of Bermuda.

Report of the Directors

PURCHASE, SALES OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

Neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's listed securities during the year of 2013.

RESERVES

Details of the movements in the reserves of the Group during the year are set out in the consolidated statement of changes in equity on page 66.

DISTRIBUTABLE RESERVES

As at 31 December 2013, the Company's reserves available for distribution amounted to HK\$Nil. Under the Companies Act 1981 of Bermuda (as amended), the contributed surplus shall not be distributed to the shareholders of the Company if there are reasonable grounds for believing that:

- (i) the Company is, or would after the payment be, unable to pay its liabilities as they become due; or
- (ii) the realisable value of the Company's assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium account.

MAJOR CUSTOMERS AND SUPPLIERS

For the financial year ended 31 December 2013, the sale of products to the largest and the five largest customers amounted to approximately 20% (2012: 24%) and 54% (2012: 62%) of the Company's revenue respectively.

For the financial year ended 31 December 2013, the purchase of materials from the largest and the five largest suppliers amounted to approximately 23% (2012: 14%) and approximately 50% (2012: 46%) of the Company's total purchases respectively.

None of the Directors, or any of their associates or any shareholders of the Company (which, to the best knowledge of the Directors, own more than 5% of the issued share capital of the Company) has any beneficial interest in any of the five largest customers and suppliers of the Group for the financial year ended 31 December 2013.

Report of the Directors

CONTINUING CONNECTED TRANSACTION

The following is a continuing connected transaction that is not exempted under the Listing Rules and is statutorily required to be disclosed pursuant to Rules 14A.45 and 14A.46 of the Listing Rules in this annual report:

Tenancy Agreement

On 1 June 2011, Topsearch Printed Circuits (HK) Limited as tenant (an indirect wholly-owned subsidiary of the Company), entered into a tenancy agreement ("Tenancy Agreement") with Keentop Investment Limited as landlord (an investment holding company and a connected person defined under the Listing Rules, which is beneficially owned as to 50% by each of Mr. Cheok Ho Fung, an Executive Director and Chief Executive Officer and his spouse, Mrs. Cheok Chu Wai Min) in respect of the renting of the properties known as House 7 and the Garden appurtenant thereto and Car Parking Spaces Nos. 7A and 7B on Basement Floor, Las Pinadas, No. 33 Shouson Hill Road, Hong Kong for a lease term of three years commencing from 1 June 2011 to 31 May 2014 (both days inclusive) as director's quarters provided to Mr. Cheok Ho Fung and his family.

Keentop Investment Limited will charge Topsearch Printed Circuits (HK) Limited for the monthly rental of HK\$165,000 (exclusive of rates, management fee and other outgoings) and monthly management fee of HK\$9,000 (subject to adjustment) from 1 June 2011 to 31 May 2014 (both days inclusive) based on the valuation report dated 6 May 2011 conducted by a professional property valuer (an independent third party). The terms of the Tenancy Agreement have been negotiated on an arm's length basis and are considered as fair and reasonable and on normal commercial terms and in the interests of the Company and its shareholders as a whole.

Details of the terms of and the annual caps under the Tenancy Agreement were announced by the Company on 1 June 2011 at the websites of the Stock Exchange and the Company respectively.

In respect of the Tenancy Agreement which constitutes a continuing connected transaction of the Company, the Independent Non-executive Directors have reviewed the said transaction and confirmed that the said transaction has been entered into:

- (1) after arm's length negotiation;
- (2) on normal commercial terms; and
- (3) in accordance with the Tenancy Agreement on terms that are fair and reasonable and in the interests of the Company and its shareholders as a whole.

Report of the Directors

The Company's external auditor was engaged to report on the Group's continuing connected transaction in accordance with Hong Kong Standard on Assurance Engagements 3000 "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued his unqualified letter continuing his findings and conclusions in respect of the continuing connected transaction disclosed by the Group on page 46 of this annual report in accordance with Rule 14A.38 of the Listing Rules. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF TOPSEARCH INTERNATIONAL (HOLDINGS) LIMITED

(Incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Topsearch International (Holdings) Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 62 to 133, which comprise the consolidated and company statements of financial position as at 31 December 2013, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditor's Report

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2013 and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

EMPHASIS OF MATTER

Without qualifying our opinion, we draw attention to Note 3(b) to the consolidated financial statements which indicates that the Group incurred a loss for the year of approximately HK\$94,267,000 for the year ended 31 December 2013. As at 31 December 2013, the Group recorded net current liabilities of approximately HK\$40,000,000. As at 31 December 2013, the Company recorded net current liabilities and deficiency in shareholders' fund of approximately HK\$1,168,000 and HK\$101,925,000, respectively. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Group's and the Company's ability to continue as a going concern.

Notes to the Financial Statements

31 December 2013

1. GENERAL

The Company was incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The directors of the Company consider that the immediate holding company and its ultimate holding company is Inni International Inc., which is incorporated in Liberia. Its ultimate controlling party is Mr. Cheok Ho Fung, Peter, an executive director and chief executive officer of the Company. The address of the registered office and principal place of business of the Company are disclosed in the corporate information to the annual report.

The Company is an investment holding company. The principal activities of its principal subsidiaries are set out in Note 34.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

(a) Adoption of new/revised HKFRSs — first effective on 1 January 2013

HKFRSs (Amendments)	Annual Improvements 2010-2012 Cycle
Amendments to HKAS 1 (Revised)	Presentation of Items of Other Comprehensive Income
Amendments to HKFRS 7	Offsetting Financial Assets and Financial Liabilities
HKFRS 10	Consolidated Financial Statements
HKFRS 12	Disclosure of Interests in Other Entities
HKFRS 13	Fair Value Measurement
HKAS 28 (2011)	Investments in Associates and Joint Ventures
HKAS 19 (2011)	Employee Benefits
Amendments to HKFRS 1	Government loans

Except as explained below, the adoption of these new/revised amendments has no material impact on the Group's financial statements.

HKFRSs (Amendments) — Annual Improvements 2010-2012 Cycle

The Basis of Conclusions for HKFRS 13 Fair Value Measurement was amended to clarify that short-term receivables and payables with no stated interest rate can be measured at their invoice amounts without discounting, if the effect of discounting is immaterial. This is consistent with the Group's existing accounting policy.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) *(continued)*

(a) **Adoption of new/revised HKFRSs — first effective on 1 January 2013** *(continued)*

Amendments to HKAS 1 (Revised) — Presentation of Items of Other Comprehensive Income

The amendments to HKAS 1 (Revised) require the Group to separate items presented in other comprehensive income into those that may be reclassified to profit and loss in the future and those that may not. Tax on items of other comprehensive income is allocated and disclosed on the same basis.

The Group has adopted the amendments retrospectively for the financial year ended 31 December 2013. Items of other comprehensive income that may and may not be reclassified to profit and loss in the future have been presented separately in the consolidated statement of profit or loss and other comprehensive income. The comparative information has been restated to comply with the amendments. As the amendments affect presentation only, there are no effects on the Group’s financial position or performance.

HKFRS 10 — Consolidated Financial Statements

HKFRS 10 introduces a single control model for consolidation of all investee entities. An investor has control when it has power over the investee (whether or not that power is used in practice), exposure or rights to variable returns from the investee and the ability to use the power over the investee to affect those returns. HKFRS 10 contains extensive guidance on the assessment of control. For example, the standard introduces the concept of “de facto” control where an investor can control an investee while holding less than 50% of the investee’s voting rights in circumstances where its voting interest is of sufficiently dominant size relative to the size and dispersion of those of other individual shareholders to give it power over the investee. Potential voting rights are considered in the analysis of control only when these are substantive, i.e. the holder has the practical ability to exercise them.

The standard explicitly requires an assessment of whether an investor with decision making rights is acting as principal or agent and also whether other parties with decision making rights are acting as agents of the investor. An agent is engaged to act on behalf of and for the benefit of another party and therefore does not control the investee when it exercises its decision making authority. The accounting requirements in HKAS 27 (2008) on other consolidation related matters are carried forward unchanged. The Group has changed its accounting policy in determining whether it has control of an investee and therefore is required to consolidate that interest (Note 4(b)).

The adoption of HKFRS 10 does not have any material impact on the Group’s financial position or performance.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) *(continued)*

(a) Adoption of new/revised HKFRSs — first effective on 1 January 2013 *(continued)*

HKFRS 12 — Disclosure of Interests in Other Entities

HKFRS 12 integrates and makes consistent the disclosures requirements about interests in subsidiaries, associates and joint arrangements. It also introduces new disclosure requirements, including those related to unconsolidated structured entities. The general objective of the standard is to enable users of financial statements to evaluate the nature and risks of a reporting entity’s interests in other entities and the effects of those interests on the reporting entity’s financial statements.

HKFRS 12 disclosures are provided in Notes 20 and 34. As the new standard affects only disclosure, there is no effect on the Group’s financial position and performance.

HKFRS 13 — Fair Value Measurement

HKFRS 13 provides a single source of guidance on how to measure fair value when it is required or permitted by other standards. The standard applies to both financial and non-financial items measured at fair value and introduces a fair value measurement hierarchy. The definitions of the three levels in this measurement hierarchy are generally consistent with HKFRS 7 “Financial Instruments: Disclosures”. HKFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price). The standard removes the requirement to use bid and ask prices for financial assets and liabilities quoted in an active market. Rather the price within the bid-ask spread that is most representative of fair value in the circumstances should be used. It also contains extensive disclosure requirements to allow users of the financial statements to assess the methods and inputs used in measuring fair values and the effects of fair value measurements on the financial statements. HKFRS 13 is applied prospectively.

HKFRS 13 did not materially affect any fair value measurements of the Group’s assets and liabilities and therefore has no effect on the Group’s financial position and performance. The standard requires additional disclosures about fair value measurements and these are included in Note 18. Comparative disclosures have not been presented in accordance with the transitional provisions of the standard.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (continued)

(b) New/revised HKFRSs that have been issued and have been early adopted

Amendments to HKAS 36 — Recoverable Amount Disclosures

The amendments limit the requirements to disclose the recoverable amount of an asset or cash generating unit ("CGU") to those periods in which an impairment loss has been recognised or reversed, and expand the disclosures where the recoverable amount of impaired assets or CGUs has been determined based on fair value less costs of disposal. The amendments are effective for annual periods commencing on or after 1 January 2014. The Group has early adopted the amendments to HKAS 36 in the current period.

(c) New/revised HKFRSs that have been issued but are not yet effective and not early adopted

The following new/revised HKFRSs, potentially relevant to the Group's financial statements, have been issued, but are not yet effective and have not been early adopted by the Group.

Amendments to HKAS 32	Offsetting Financial Assets and Financial Liabilities ¹
HKFRS 9	Financial Instruments
HKFRSs (Amendments)	Annual Improvements 2010-2012 Cycle ³
HKFRSs (Amendments)	Annual Improvements 2011-2013 Cycle ²

² Effective for annual periods beginning on or after 1 July 2014

³ Effective for annual periods beginning, or transactions occurring, on or after 1 July 2014

Amendments to HKAS 32 — Offsetting Financial Assets and Financial Liabilities

The amendments clarify the offsetting requirements by adding appliance guidance to HKAS 32 which clarifies when an entity "currently has a legally enforceable right to set off" and when a gross settlement mechanism is considered equivalent to net settlement.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") *(continued)*

(c) **New/revised HKFRSs that have been issued but are not yet effective and not early adopted** *(continued)*

HKFRS 9 — Financial Instruments

Under HKFRS 9, financial assets are classified into financial assets measured at fair value or at amortised cost depending on the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Fair value gains or losses will be recognised in profit or loss except for those non-trade equity investments, which the entity will have a choice to recognise the gains and losses in other comprehensive income. HKFRS 9 carries forward the recognition, classification and measurement requirements for financial liabilities from HKAS 39, except for financial liabilities that are designated at fair value through profit or loss, where the amount of change in fair value attributable to change in credit risk of that liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, HKFRS 9 retains the requirements in HKAS 39 for derecognition of financial assets and financial liabilities.

Annual Improvements 2010-2012 Cycle and 2011-2013 Cycle

The amendments issued under the annual improvements process make small, non-urgent changes to a number of standards where they are currently unclear. Among them HKAS 16 Property, Plant and Equipment has been amended to clarify how the gross carrying amount and accumulated depreciation are treated where an entity uses the revaluation model. The carrying amount of the asset is restated to revalued amount. The accumulated depreciation may be eliminated against the gross carrying amount of the asset. Alternatively, the gross carrying amount may be adjusted in a manner consistent with the revaluation of the carrying amount of the asset and the accumulated depreciation is adjusted to equal the difference between the gross carrying amount and the carrying amount after taking into account accumulated impairment losses.

The Group is in the process of making an assessment of the potential impact of these pronouncements. The directors of the Company so far concluded that the adoption of these pronouncements will have no material impact on the Group's financial statements.

Notes to the Financial Statements

31 December 2013

3. BASIS OF PREPARATION

(a) Statement of compliance

The financial statements have been prepared in accordance with all applicable HKFRSs, Hong Kong Accounting Standards ("HKASs") and Interpretations (hereinafter collectively referred to as the "HKRFSS") and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

(b) Basis of measurement and going concern assumption

The financial statements have been prepared under the historical cost basis except for certain properties and financial instruments, which are measured at revalued amounts or fair values as explained in the accounting policies set out below.

During the year, the Group incurred a loss for the year of approximately HK\$94,267,000 for the year ended 31 December 2013. As at 31 December 2013, the Group recorded net current liabilities of approximately HK\$40,000,000. As at 31 December 2013, the Company recorded net current liabilities and deficiency in shareholders' fund of approximately HK\$1,168,000 and HK\$101,925,000, respectively. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Group's and the Company's ability to continue as a going concern and therefore, the Group and the Company may not be able to realise the assets and discharge the liabilities in the normal course of business. In the opinion of the directors, the subsidiaries of the Company would declare dividends to the Company and other equity owners to improve the financial position of the Company.

Taking into account the following factors, the directors of the Company are of the view that the Group and the Company will be able to meet the financial obligations when they fall due in the foreseeable future:

- (i) As at 31 December 2013, the undrawn committed banking facilities available to the Group amounted to RMB170,791,000 (equivalent to approximately HK\$218,963,000) in respect of which all conditions precedent were met, out of which the banking facilities in the amount of RMB100,000,000 (equivalent to approximately HK\$128,206,000) would be repayable after one year from the date of drawdown but not later than 23 September 2016;
- (ii) The controlling shareholder of the Company has provided shareholder's loans of approximately HK\$101,757,000 to the Company and the Group on 31 December 2013 which will be repayable in 2015. The controlling shareholder has agreed in writing to provide continuing financial support for financing the working capital of the Group when needed in the foreseeable future; and

Notes to the Financial Statements

3. BASIS OF PREPARATION *(continued)*

(b) **Basis of measurement and going concern assumption** *(continued)*

- (iii) The Group undertakes an extensive restructuring program to reduce operating costs which includes taking steps to reduce discretionary expenses and administrative costs.

Accordingly, the consolidated financial statements have been prepared on a going concern basis.

Should the Group and the Company be unable to continue in business as a going concern, adjustments would have to be made in the financial statements to write down the values of the assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effect of these adjustments has not yet been reflected in the financial statements.

(c) **Functional and presentation currency**

The financial statements are presented in Hong Kong dollars ("HK\$"), which is the same as the functional currency of the Company.

4. SIGNIFICANT ACCOUNTING POLICIES

(a) **Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the dates of acquisition or up to the dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interest and the non-controlling interest are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(a) **Basis of consolidation** *(continued)*

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of.

Subsequent to acquisition, the carrying amount of non-controlling interests that represent present ownership interests in the subsidiary is the amount of those interests at initial recognition plus such non-controlling interest's share of subsequent changes in equity. Total comprehensive income is attributed to such non-controlling interests even if this results in those non-controlling interests having a deficit balance.

(b) **Subsidiaries**

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure, or rights, to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

(c) **Associates**

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor a joint arrangement. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

Associates are accounted for using the equity method whereby they are initially recognised at cost and thereafter, their carrying amount are adjusted for the Group's share of the post-acquisition change in the associates' net assets except that losses in excess of the Group's interest in the associate are not recognised unless there is an obligation to make good those losses.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(c) **Associates** *(continued)*

Profits and losses arising on transactions between the Group and its associates are recognised only to the extent of unrelated investors' interests in the associate. The investor's share in the associate's profits and losses resulting from these transactions is eliminated against the carrying value of the associate. Where unrealised losses provide evidence of impairment of the asset transferred they are recognised immediately in profit or loss.

Any premium paid for an associate above the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities acquired is capitalised and included in the carrying amount of the associate. Where there is objective evidence that the investment in an associate has been impaired, the carrying amount of the investment is tested for impairment in the same way as other non-financial assets.

(d) **Property, plant and equipment**

The buildings component of owner-occupied leasehold properties is stated at valuation less accumulated depreciation. Revaluations are performed with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair values at the end of the reporting period. Increases in value arising on revaluation are recognised in other comprehensive income and accumulated in equity under the heading of property revaluation reserve. Decreases in value arising on revaluation are first offset against increases on earlier valuations in respect of the same property and thereafter recognised in profit or loss. Any subsequent increases are recognised in profit or loss up to the amount previously charged and thereafter to the property revaluation reserve.

Upon disposal, the relevant portion of the property revaluation reserve realised in respect of previous valuations is released from the property revaluation reserve to accumulated losses.

Other property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(d) **Property, plant and equipment** *(continued)*

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

Property, plant and equipment are depreciated so as to write off their cost or valuation net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The useful lives are as follows:

Buildings	Over the lease terms ranging from 30 to 50 years
Leasehold improvements	5 years
Plant and machinery	10 years
Furniture, fixtures and equipment	5 years
Motor vehicles	5 years
Moulds, dies, test fixtures and pins	4 years

An asset is written down immediately to its recoverable amount if its carrying amount is higher than the asset's estimated recoverable amount.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets, or where shorter, the term of the relevant lease.

The gain or loss on disposal of an item of property, plant and equipment is the difference between the net sale proceeds and its carrying amount, and is recognised in profit or loss on disposal.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(e) **Payments for leasehold land held for own use under operating leases**

Payments for leasehold land held for own use under operating leases represent up-front payments to acquire long-term interests in lessee-occupied properties. These payments are stated at cost and are amortised over the period of the lease on a straight-line basis as an expense.

(f) **Leasing**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to lessee. All other leases are classified as operating leases.

The Group as lessee

Assets held under finance leases are initially recognised as assets at their fair value or, if lower, the present value of the minimum lease payments. The corresponding lease commitment is shown as a liability. Lease payments are analysed between capital and interest. The interest element is charged to profit or loss over the period of the lease and is calculated so that it represents a constant proportion of the lease liability. The capital element reduces the balance owed to the lessor.

The total rentals payable under the operating leases are recognised in profit or loss on a straight-line basis over the lease term. Lease incentives received are recognised as an integrated part of the total rental expense, over the term of the lease.

(g) **Financial instruments**

(i) ***Financial assets***

The Group classifies its financial assets at initial recognition, depending on the purpose for which the asset was acquired. Financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition of the financial assets. Regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

Loans and receivables

These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers, and also incorporate other types of contractual monetary asset. Subsequent to initial recognition, they are carried at amortised cost using the effective interest method, less any identified impairment losses.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(g) **Financial instruments** *(continued)*

(i) **Financial assets** *(continued)*

Available-for-sale financial assets

These assets are non-derivative financial assets that are designated as available-for-sale or are not included in other categories of financial assets. Subsequent to initial recognition, these assets are carried at fair value with changes in fair value recognised in other comprehensive income, except for impairment losses and foreign exchange gains and losses on monetary instruments, which are recognised in profit or loss.

(ii) **Impairment loss on financial assets**

The Group assesses, at the end of each reporting period, whether there is any objective evidence that financial asset is impaired. Financial asset is impaired if there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset that can be reliably estimated. Evidence of impairment may include:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- granting concession to a debtor because of debtor's financial difficulty;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(g) **Financial instruments** *(continued)*

(ii) **Impairment loss on financial assets** *(continued)*

For loans and receivables

An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. The carrying amount of financial asset is reduced through the use of an allowance account. When any part of financial asset is determined as uncollectible, it is written off against the allowance account for the relevant financial asset.

Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

For available-for-sale financial assets

Where a decline in the fair value constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognised in profit or loss.

Any impairment losses on available-for-sale debt investments are subsequently reversed in profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

(iii) **Financial liabilities**

Financial liabilities at amortised cost are initially measured at fair value, net of directly attributable costs incurred, and are subsequently measured at amortised cost, using effective interest method. The related interest expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(g) **Financial instruments** *(continued)*

(iv) **Effective interest method**

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

(v) **Equity instruments**

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(vi) **Derecognition**

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKAS 39.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

(h) **Inventories**

Inventories are stated at the lower of cost and net realisable value.

Raw materials are valued at cost on a weighted average basis. Work in progress and finished goods are valued at standard cost which approximates to the actual cost determined on a weighted average basis and comprises direct materials, direct labour and an appropriate proportion of manufacturing overheads.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated cost necessary to make the sale.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(i) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold in the normal course of business, net of rebate, discounts and related taxes. Provided it is probable that the economic benefit will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised as follows:

Revenue from sale of goods is recognised on transfer of risks and rewards of ownership, which is at the time of delivery and the title is passed to customer.

Tooling income is recognised when the relevant services are provided.

Interest income is accrued on a time basis on the principal outstanding at the applicable interest rate.

Dividend income is recognised when the right to receive the dividend is established.

(j) Income taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for goodwill and recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates appropriate to the expected manner in which the carrying amount of the asset or liability is realised or settled and that have been enacted or substantively enacted at the end of reporting period.

Notes to the Financial Statements

31 December 2013

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(j) **Income taxes** *(continued)*

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Income taxes are recognised in profit or loss except when they relate to items recognised in other comprehensive income in which case the taxes are also recognised in other comprehensive income or when they relate to items recognised directly in equity in which case the taxes are also recognised directly in equity.

(k) **Foreign currency**

Transactions entered into by group entities in currencies other than the currency of the primary economic environment in which they operate (the "functional currency") are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the end of reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

On consolidation, income and expense items of foreign operations are translated into the presentation currency of the Group (i.e. HK\$) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of reporting period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity as foreign exchange reserve. Exchange differences recognised in profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operations concerned are reclassified to other comprehensive income and accumulated in equity as foreign exchange reserve.

On disposal of a foreign operation, the cumulative exchange differences recognised in the foreign exchange reserve relating to that operation up to the date of disposal are transferred to profit or loss as part of the profit or loss on disposal.

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(l) **Employee benefits**

(i) **Short term employee benefits**

Short term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service. Short term employee benefits are recognised in the year when the employees render the related service.

(ii) **Defined contribution retirement plans**

Contributions to defined contribution retirement plans are recognised as an expense in profit or loss when the services are rendered by the employees.

(iii) **Termination benefits**

Termination benefits are recognised on the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs involving the payment of termination benefits.

(m) **Impairment of other assets**

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment; interests in leasehold land held for own use under operating leases; and investments in subsidiaries and associates to determine whether there is any indication that these assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased.

If the recoverable amount (i.e. the greater of the fair value less costs of disposal and value in use) of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(n) Government grants

Government grants are recognised when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as revenue in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

(o) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, which will probably result in an outflow of economic benefits that can be reasonably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(p) Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group.

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(p) Related parties *(continued)*

(b) An entity is related to the Group if any of the following conditions apply:

- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group.
- (vi) The entity is controlled or jointly controlled by a person identified in (a).
- (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

4. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(q) Capitalisation of borrowing costs

Borrowing costs attributable directly to the acquisition, construction or production of qualifying assets which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets. Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

(a) *Estimation of useful lives of property, plant and equipment*

As described in Note 4(d), items of property, plant and equipment are depreciated on a straight line basis over their estimated useful lives after taking into account the estimated residual values. The estimated useful lives are based on the expected lives of those property, plant and equipment. The useful lives of property, plant and equipment could change significantly as a result of technical obsolescence. When the actual useful lives of property, plant and equipment, due to the change of commercial and technological environment, are different from their estimated useful lives, such difference will impact the depreciation charges.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

Key sources of estimation uncertainty *(continued)*

(b) Impairment of property, plant and equipment

The Group assesses annually whether property, plant and equipment have any indication of impairment, in accordance with the relevant accounting policies. The determination of the recoverable amounts requires the use of judgment and estimates on future operating cash flows and discount rates adopted. Where the actual cash flows are different from the original estimate, a material change in the amount of impairment may arise, further details of which are set out in Note 18.

(c) Fair value measurement of buildings

As described in Note 18, the buildings were measured at their fair values at the end of the reporting date using the market approach and the depreciated replacement cost approach as adopted by an independent qualified valuer. Based on the valuation at 31 December 2013, no increase or decrease in valuation was recognised in relation to the buildings.

The fair value measurement of the Group's buildings utilises market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are (the "fair value hierarchy"):

Level 1:	Quoted prices in active markets for identical items (unadjusted);
Level 2:	Observable direct or indirect inputs other than Level 1 inputs;
Level 3:	Unobservable inputs (i.e. not derived from market data).

Further detailed information in relation to the fair value measurement of the revalued buildings is set out in Note 18.

(d) Impairment loss on trade receivables

The policy for impairment loss on trade receivables of the Group is based on the evaluation of collectability and the ageing analysis of the trade receivables and on management's judgment. A considerable amount of estimation is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional impairment loss may be required, further details of which are set out in Note 23.

6. SEGMENT INFORMATION

(a) Reportable segments

No segment information is presented as the manufacture and sale of printed circuit boards is the only operating segment of the Group. The Group's chief operating decision maker (the Chief Executive Officer of the Group) regularly reviews the consolidated results of the Group as a whole for the purposes of resource allocation and assessment of performance. The Group considered that there is only one reportable operating segment with the segment revenue, segment results, segment assets and segment liabilities the same as the revenue, (loss)/profit for the year, total assets and total liabilities respectively as reported in the consolidated financial statements.

(b) Geographical information

The following table provides an analysis of the Group's revenue from external customers and non-current assets other than financial instruments ("Specified non-current assets").

13. DIRECTORS' AND CHIEF EXECUTIVE OFFICER'S EMOLUMENTS *(continued)*

[^] Included in the amount is rental and management fee paid for director's quarter to a company beneficially owned by Mr. Cheok Ho Fung, Peter.

Mr. Cheok Ho Fung, Peter is also the Chief Executive Officer of the Company and his emoluments disclosed above include those for services rendered by him as the Chief Executive Officer.

No emolument was paid to the directors as an inducement to join or upon joining the Group or as compensation for loss of office during both years. No directors waived any of their emoluments for both years.

14. FIVE HIGHEST PAID INDIVIDUALS

Of the five individuals with the highest emoluments in the Group, one (2012: one) was a director of the Company whose emoluments are included in the disclosures in Note 13 above. The emoluments of the remaining four (2012: four) individuals were as follows:

	2013 <i>HK\$'000</i>	2012 <i>HK\$'000</i>
Salaries and other benefits	3,699	2,835
Contributions to retirement benefit scheme	146	136

14. FIVE HIGHEST PAID INDIVIDUALS *(continued)*

The emoluments paid or payable to members of senior management were within the following bands:

	2013	2012
	Number of individuals	<i>Number of individuals</i>
Nil to HK\$1,000,000	8	10
HK\$1,500,001 to HK\$2,000,000	1	—
HK\$5,000,001 to HK\$5,500,000	1	1

15. INCOME TAX EXPENSE

The amount of income tax expense in the consolidated statement of comprehensive income represents:

	2013	2012
	HK\$'000	<i>HK\$'000</i>
Current tax — PRC Enterprise Income Tax		
— tax for the year	3,291	4,216
— underprovision in respect of prior years	294	341
Income tax expense	3,585	4,557

No provision for Hong Kong Profits Tax has been made as the Group did not generate any assessable profits arising in Hong Kong for both years. No Macau profits tax has been provided as the Macau subsidiary of the Company is exempted from Macau Complementary Tax for both years.

Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the Group's PRC subsidiaries is 25%.

The income tax expense for the year ended 31 December 2012 included an income tax charge of approximately HK\$969,000, which represented the PRC income tax charged on the gain of HK\$271,299,000 which arose on disposal of 70% equity interest in Topsearch Printed Circuits (Shenzhen) Limited ("Topsearch Shenzhen") (as further detailed in Note 44). According to the EIT Law effective from 1 January 2008 and its Implementation Regulation, the capital gain derived from equity rights transfer by a non-resident enterprise, representing the difference between the transfer price and the relevant registered capital is subject to a tax rate of 10%.

Notes to the Financial Statements

16. (LOSS)/PROFIT FOR THE YEAR ATTRIBUTABLE TO OWNERS OF THE COMPANY

The Group's (loss)/profit for the year attributable to owners of the Company includes an amount of loss of approximately HK\$13,574,000 (2012: HK\$14,016,000) which has been dealt with in the financial statements of the Company.

17. (LOSS)/EARNINGS PER SHARE

The calculation of basic (loss)/earnings per share attributable to owners of the Company is based on the following data:

	2013 HK\$'000	2012 HK\$'000
(Loss)/earnings for the purpose of basic (loss)/earnings per share	(90,381)	96,341
	2013	2012
Weighted average number of ordinary shares for the purpose of basic (loss)/earnings per share	1,000,000,000	943,858,000

Basic and diluted (loss)/earnings per share are equal as there were no potential dilutive ordinary shares in issue for both years and as at 31 December 2012 and 2013.

18. PROPERTY, PLANT AND EQUIPMENT *(continued)*

The Group's buildings are situated in the PRC and are held under medium lease terms. At 31 December 2013, the Group's buildings with a carrying amount of approximately HK\$256,618,000 (2012: HK\$256,510,000) were pledged to secure the bank loans granted to the Group.

The Group is in the process of obtaining ownership certificate of buildings with a carrying amount of approximately HK\$129,508,000 (2012: HK\$163,859,000) as at 31 December 2013.

As at 31 December 2013, the carrying amount of the Group's plant and machinery includes an amount of approximately HK\$4,927,000 (2012: HK\$Nil) in respect of assets acquired under finance leases (Note 28).

The Group's buildings were revalued at 31 December 2012 and 2013 based on market approach and with reference to the valuation reports issued by DTZ Debenham Tie Leung Limited ("DTZ"), an independent firm of qualified professional valuers. DTZ's valuation reports used depreciated replacement cost approach which is arrived at using the aggregate amount of the new replacement cost of the buildings, from which appropriate deductions may then be made to allow for the age, condition, functional obsolescence and environmental factor, or agreed selling price where available. The market approach was with reference to the agreed selling price of a portion of a property of the Group (Note 27). The revaluation surplus net of applicable deferred income taxes was credited to property revaluation reserve.

The following table presents the fair values of the Group's buildings measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

	2013 HK\$'000
Level 2	129,508
Level 3	257,657
	387,165

Notes to the Financial Statements

18. PROPERTY, PLANT AND EQUIPMENT *(continued)*

A reconciliation of the opening and closing fair value balance of Level 3 recurring fair value measurement is provided below:

	2013 HK\$'000
Opening balance (Level 3 recurring fair value)	256,510
Depreciation provided for the year	(5,334)
Exchange realignment	6,481
Closing balance (Level 3 recurring fair value)	257,657

The following table gives information about how the fair value of the Group's buildings are determined, as well as the fair value hierarchy into which the fair value measurement are categorised, based on the degree to which the inputs to the fair value measurement is observable.

Fair value hierarchy	Valuation technique	Significant unobservable input	Relationship of unobservable inputs for fair value	Range
Level 3	Depreciated replacement cost approach	New replacement costs per square metre are determined using estimated new replacement cost per square metre of the buildings, and adjusted to reflect the age, condition, functional obsolescence and environmental factor	The increase in the new depreciated replacement costs per square metre would result in a increase in fair value	RMB1,326 to RMB3,060 per square metre
Level 2	Market approach	N/A	N/A	N/A

Notes to the Financial Statements

31 December 2013

18. PROPERTY, PLANT AND EQUIPMENT *(continued)*

There were no changes to the valuation techniques during the period.

The fair value measurement is based on the above properties' highest and best use, which does not differ from their actual use.

Had the Group's buildings been stated at historical cost less accumulated depreciation and impairment losses (if any), their carrying amount as at 31 December 2013 would have been approximately HK\$387,165,000 (2012: HK\$420,369,000).

During the year ended 31 December 2013, a fair value loss of approximately HK\$35,000,000 on idle property located in Tongliao, the PRC was recognised in profit or loss included in other gains and losses. The fair value was estimated using a market approach with reference to the agreed selling price for a portion of a property of the Group.

19. PAYMENTS FOR LEASEHOLD LAND HELD FOR OWN USE UNDER OPERATING LEASES

The Group's payments for leasehold land held for own use under operating leases comprise of land use rights in the PRC on a medium lease terms:

	2013 HK\$'000	2012 <i>HK\$'000</i>
Analysed for reporting purpose as		
Current assets	597	538
Non-current assets	23,295	23,339

23. TRADE RECEIVABLES *(continued)*

As at 31 December 2013, trade receivables of approximately HK\$101,344,000 (2012: HK\$123,657,000) are neither past due nor impaired. Trade receivables that were neither past due nor impaired related to customers for whom there was no recent history of default.

The ageing of trade receivables (net of allowance for doubtful debts) which are past due but not impaired is as follows:

	2013 HK\$'000	2012 HK\$'000
0 — 30 days past due	20,550	16,778
31 – 90 days past due	4,139	3,122
	24,689	19,900

Trade receivables that were past due but not impaired related to customers that have good creditworthiness or good track record with the Group. Based on past experience, the management considered no impairment is necessary as there has not been a significant change in credit quality of these balances, which are still considered fully recoverable. The Group does not hold any collateral over these balances.

The movement in the impairment loss on trade receivables during the year is as follows:

	2013 HK\$'000	2012 HK\$'000
At beginning of the year	8,491	7,074
(Reversal of impairment)/Impairment loss recognised	(1,251)	3,060

24. PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

At 31 December 2012, the prepayments, deposits and other receivables included consideration receivable of HK\$305,017,000 consisted of consideration of HK\$306,137,000 arising from the Transfer as set out in Note 20 net of withholding tax on capital gain on disposal of a subsidiary of HK\$969,000 (Note 15) and HK\$151,000 incremental costs directly attributable to the Transfer paid on behalf by the buyer. The full amount was received during the year ended 31 December 2013.

25. PLEDGED BANK DEPOSITS AND BANK BALANCES AND CASH

At 31 December 2013, bank balances carry interest at prevailing deposit rates which range from 0.001% to 0.35% (2012: 0.001% to 0.35%) per annum. During the year ended 31 December 2013, the pledged bank deposits carry interest at prevailing deposit rates of 3.0% (2012: 3%).

Pledged bank deposits represented deposits pledged to banks to secure short-term loans and are therefore classified as current assets.

The Group's pledge bank deposits and bank balances and cash that are denominated in currencies other than the functional currencies of the relevant group entities are set out below:

	2013 HK\$'000	2012 HK\$'000

26. TRADE PAYABLES *(continued)*

The Group's trade payables that are denominated in a currency other than the functional currencies of the relevant group entities are set out below:

	2013 HK\$'000	2012 HK\$'000
Denominated in United States dollars	67,851	75,618

The trade payables are non-interest-bearing and are normally settled on terms of 60 to 120 days. The Group has financial risk management policies in place to ensure that all payables are settled within the credit timeframe.

27. OTHER PAYABLES AND ACCRUALS

Included in other payables and accruals are accruals for payroll and payroll related costs, utilities charges and general administrative expenses, purchases of spare parts and a deposit of approximately RMB30,000,000 (equivalent to approximately HK\$38,462,000 (2012: RMB30,000,000 (equivalent to HK\$37,500,000)) in respect of a property assignment transaction described below.

On 31 December 2010, Topsearch Printed Circuits (Tongliao) Limited ("TPC (Tongliao)"), a wholly-owned subsidiary of the Company, entered into a property assignment agreement ("Property Assignment Agreement") with an independent third party (the "Purchaser"), to sell a portion of a parcel of industrial land and buildings (the "Property"), which are located in phase II of Tongliao Economic Technology Development Zone, Tongliao City, Inner Mongolia, the PRC for a consideration of RMB51,000,000 (equivalent to HK\$59,302,000).

As at 31 December 2011, a deposit of RMB20,000,000 (equivalent to HK\$24,691,000) was received whilst the transaction was suspended due to delay of financing arrangement with a bank for a loan by the Purchaser for settlement of the remaining consideration. The directors of the Company believed that the aforesaid remaining consideration balance of RMB31 million would be settled in full, taking into consideration the statements given by the local government bodies of Tongliao dated 21 March 2012 that they would pay directly to the Group's subsidiary in Tongliao.

During the year ended 31 December 2012, a further deposit of RMB10,000,000 (equivalent to HK\$12,500,000) was received from local government bodies of Tongliao.

At 31 December 2013 and 2012, the Property is currently idle and included in payments for leasehold land held for own use under operating leases and property, plant and equipment with carrying amounts of approximately RMB6,148,000 (equivalent to approximately HK\$7,882,000) (2012: RMB6,486,000 (equivalent to HK\$8,108,000)) and approximately RMB40,320,000 (equivalent to approximately HK\$51,692,000) (2012: RMB41,185,000 (equivalent to HK\$51,481,000)) respectively. In the opinion of the directors, no reclassification of the Property to non-current asset held for sale in the consolidated financial statements was made as it is not highly probable that the transaction will be completed in the next twelve months from the end of the reporting period.

Notes to the Financial Statements

31 December 2013

28. OBLIGATION UNDER FINANCE LEASES

As at 31 December 2013, the Group leases certain plant and machinery items. Such assets are generally classified as finance leases as the ownership of the assets will be transferred to the Group by the end of the lease terms.

As at 31 December 2013, future lease payments are due as follows:

	Minimum lease payments 2013 HK\$'000	Interest 2013 HK\$'000	Present value 2013 HK\$'000

31. DEFERRED TAX LIABILITIES *(continued)*

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

	The Group	
	2013	2012
	HK\$'000	HK\$'000
Deferred tax liabilities	—	—

The Group has unused tax losses arising in the PRC of HK\$37,340,000 (2012: HK\$30,346,000) that will expire in one to five years for offsetting against future taxable profit. Deferred tax assets have not been recognised in respect of these losses as they have arisen in subsidiaries that have been loss-making for several years and it is not considered probable that taxable profit will be available against which the tax losses can be utilised.

At the end of the reporting period, the Group has deductible temporary differences of HK\$121,168,000 (2012: HK\$117,270,000) in respect of the allowance for obsolete inventories and impairment of property, plant and equipment. No deferred tax asset has been recognised in relation to such deductible temporary differences as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

Under the EIT Law, withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1 January 2008 onwards. There is no profit of the PRC subsidiaries available for distribution subject to the withholding tax.

As at 31 December 2013 and 2012, the Group and the Company did not have other material unrecognised deferred tax.

35. OPERATING LEASE COMMITMENTS

The Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due during the period as follows:

	2013 HK\$'000	2012 HK\$'000
Within one year	3,430	5,388
In the second to fifth years inclusive	1,620	2,323
	5,050	7,711

Operating lease payments represent rentals payable by the Group for its office properties and staff quarters. Leases were negotiated for terms ranging from one to three years with fixed rentals over the terms of the leases.

36. CAPITAL AND OTHER COMMITMENTS

	2013 HK\$'000	2012 HK\$'000

38. SHARE OPTION SCHEME

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Scheme include any employees, non-executive directors, customers, suppliers of goods or services and persons or entities that provide research, development or other technical support to the Group, or any entities in which the Group holds an equity interest. The number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other share option scheme of the Company must not exceed 30% of the issued share capital of the Company from time to time. The Scheme was adopted on 30 May 2002 and became effective on 21 June 2002 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date. The share option scheme had been expired during the year ended 31 December 2012 without renewal.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue on 30 May 2002. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

The offer of a grant of share options may be accepted within 28 days after the date of offer and upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors of the Company, and commences once they become vested and ends on a date which is not later than five years from the date of offer of the share options or the expiry date of the Scheme, if earlier.

The exercise price of share options is determinable by the directors of the Company, but may not be less than the highest of (i) the Stock Exchange closing price of the Company's shares on the date of offer of the share options; (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of offer; and (iii) the nominal value of a share of the Company.

No share options were granted during the year (2012: Nil). At the end of the reporting period, no share options were outstanding under the Scheme (2012: Nil).

39. RELATED PARTIES TRANSACTIONS

- (a) In addition to the related party balances and transactions set out in other notes to the consolidated financial statements, during the year, the Group entered into the following transactions with related parties:

Related party	Nature of transaction	2013 HK\$'000	2012 HK\$'000
Keentop Investment Limited ("Keentop") (Note (i))	Rental expenses and management fee expense	2,099	2,099
Mr. Cheok Ho Fung, Peter	Interest on shareholder's loans	7,135	6,528
無錫智速科技有限公司 (Note (ii))	Service fee	697	1,119

Notes:

- (i) The amounts paid to Keentop, which is beneficially owned by Mr. Cheok Ho Fung, Peter, a director of the Company, and his spouse, related to a property leased as their residence. Pursuant to a tenancy agreement entered into on 1 June 2011, the monthly rental and management fees were revised to HK\$165,000 and HK\$9,000 respectively for the period from 1 June 2011 to 31 May 2014. The fees were based on a market rental valuation provided by DTZ.

At the end of reporting period, the Group had commitments for future minimum lease payments payable to Keentop under non-cancellable leases which fall due as follows:

	2013 HK\$'000	2012 HK\$'000
Within one year	825	1,980
In the second to fifth years inclusive	—	825

40. SUMMARY OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES BY CATEGORY

(continued)

(b) Fair values

The fair values of financial assets and financial liabilities are determined as follows:

- The fair values of financial assets which are traded on active markets are determined with reference to quoted market bid prices; and
- The fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors of the Company consider that the carrying amounts of the financial assets and financial liabilities recorded at amortised costs in the consolidated financial statements approximate to their fair values.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities; Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and Level 3 fair value measurements are those derived from inputs that are not based on observable market data (unobservable inputs).

Available-for-sale financial assets are measured subsequent to initial recognition at fair value, grouped into Level 2.

41. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES

The Group's major financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner. The Group's overall strategy remains unchanged from prior year.

(i) Currency risk

Several subsidiaries of the Company have foreign currency sales and purchases, which expose the Group to foreign currency risk. The Group currently does not have a foreign currency hedging policy. However, management closely monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the monetary assets and monetary liabilities denominated in foreign currencies, i.e. currency other than the functional currency of the respective group entities, which are mainly trade receivables, intra-group companies balances, trade payables, pledged bank deposits, bank balances and bank loans at the end of the reporting period, are as follows:

	2013 HK\$'000	2012 HK\$'000
Assets		
United States dollars	181,396	515,232
Renminbi	11,148	—
Hong Kong dollars	620	904
Euro dollars	568	935
Liabilities

41. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES *(continued)*

(i) **Currency risk** *(continued)*

Sensitivity analysis

The following table details the Group's sensitivity to a 5% increase in the functional currencies of the group entities, against relevant foreign currencies, mainly United States dollars and Renminbi. The directors of the Company are of the opinion that the Group's sensitivity to the change in United States dollars against Hong Kong dollars is low as Hong Kong dollars are pegged to United States dollars. In addition, the monetary assets denominated in Euro dollars and Hong Kong dollars are not significant and the directors of the Company consider that the Company's exposure to the currency of Euro dollars and Hong Kong dollars are minimal. As a result, the following sensitivity table does not include the impact of such changes. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign currency rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for 5% change in foreign currency rates.

A positive number below indicates a decrease in loss for the year (2012: increase in profit for the year) when the functional currencies strengthen against the relevant foreign currencies. For a 5% weakening of the functional currencies against the relevant foreign currencies, there would be an equal but opposite impact on the results for the year.

	2013 HK\$'000	2012 HK\$'000
United States dollars		
(Loss)/profit for the year	2,401	24,632
Renminbi		
(Loss)/profit for the year	287	208

Notes to the Financial Statements

41. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES *(continued)*

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate bank loans and shareholder's loans.

The Group is also exposed to cash flow interest rate risk in relation to the Group's pledged bank deposits, bank balances and bank borrowings with floating interest rates. The directors of the Company monitor the related cash flow interest rate risk exposure closely and will consider hedging significant cash flow interest rate risk exposure should the need arise. No derivative contracts have been entered into during both years.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for non-derivative financial liabilities. The analysis is prepared assuming the financial liabilities outstanding at the end of the reporting period were outstanding for the whole year. A 300-basis-point (2012: 300-basis-point) is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 300 basis points (2012: 300 basis points) higher and all other variables were held constant, the Group's loss for the year ended 31 December 2013 would increase by HK\$1,419,000 (2012: profit for the year would decrease by HK\$4,805,000).

The Group's exposure to cash flow interest rate risk is mainly concentrated on the fluctuation of People's Bank of China lending rate arising from the Group's bank borrowings. In the opinion of directors of the Company, no sensitivity analysis for pledged bank deposits and bank balances is prepared as the effect of fluctuation of interest rate is not significant.

(iii) Credit risk

The Group has policies in place to ensure that sales of products are made to customers with an appropriate credit history. The Group mainly trades with recognised and creditworthy third parties. It is the Group's policy that credit terms are granted subject to in-depth credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and substantially covered by credit insurance. In this regard, management considers that the Group's credit risk is minimal.

Notes to the Financial Statements

31 December 2013

41. FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES *(continued)*

(iii) **Credit risk** *(continued)*

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to perform an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

Since the Group mainly trades with recognised and creditworthy third parties, there is no requirement for collateral.

The Group has concentration of credit risk on liquid funds which are deposited with several banks with high credit ratings.

The Group also has concentration of credit risk as 48% (2012: 53%) of the total trade receivables were due from the Group's two largest customers.

Furthermore, as at 31 December 2012, the Group has concentration of credit risk on consideration receivable of HK\$305,047,000 from Shenzhen Fantasia and Shanghai Yuxing (Notes 20 and 24). The receivable has been settled during the year ended 31 December 2013.

(iv) **Liquidity risk**

The Group is exposed to significant liquidity risk at the end of the reporting period, as it has net current liabilities of approximately HK\$40,000,000 (2012: HK\$6,279,000). The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term. The Group also relies on the continuous financial support from the banks and its shareholder and the management closely monitors its liquidity risk. Accordingly, the directors of the Company considered that the Group's liquidity risk is properly addressed and therefore prepared the consolidated financial statements on a going concern basis.

The following table details the remaining contractual maturity at the end of the reporting period of the Group's non-derivative financial liabilities, which are based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

42. CAPITAL RISK MANAGEMENT

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2012 and 2013.

The Group monitors its capital using a gearing ratio, which is net debt divided by the total capital plus net debt. The Group's policy is to maintain the gearing ratio of not more than 80%. Net debt includes trade payables, other payables and accruals, amount due to an associate, obligation under finance leases, interest-bearing bank loans and shareholder's loans, less cash and cash equivalents. Capital represents total equity. The gearing ratios as at the end of the reporting periods were as follows:

	2013	2012

43. RETIREMENT BENEFIT SCHEMES

Hong Kong

The Group participates in both a defined contribution scheme which is registered under the Occupational Retirement Scheme Ordinance (the "ORSO Scheme") and a Mandatory Provident Fund Scheme (the "MPF Scheme") established under the Mandatory Provident Fund Ordinance. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees. Employees who were members of the ORSO Scheme prior to the establishment of the MPF Scheme were offered a choice of staying within the ORSO Scheme or switching to the MPF Scheme, whereas all new employees joining the Group on or after 1 December 2000 are required to join the MPF Scheme.

The ORSO Scheme is funded by monthly contributions from both employees and the Group based on a specified percentage of the employee's basic salary, depending on the length of service with the Group. Where there are employees who leave the ORSO Scheme prior to vesting, the contributions payable by the Group are reduced by the amount of forfeited contributions. No forfeited contributions were utilised in this manner for both years.

For members of the MPF Scheme, the Group contributes 5% of relevant payroll costs to the scheme, which contribution is matched by the employees subject to a limit of HK\$1,250 since 1 June 2012 (Before 1 June 2012: HK\$1,000).

The PRC

The employees of the Group in the PRC are members of state-managed retirement benefit schemes operated by the local government in the PRC. The Group is required to contribute a specified percentage of the payroll costs to the retirement benefit schemes to fund the benefits. The only obligation of the Group with respect to the retirement benefit schemes is to make the specified contributions.

44. DISPOSAL OF A SUBSIDIARY

On 31 December 2012, Topsearch Shenzhen ceased as a subsidiary of the Group upon the Transfer. Immediately after the Transfer, the Group's remaining shareholdings in Topsearch Shenzhen is 30%. As a result, the Group was no longer in a position to exercise control but significant influence over Topsearch Shenzhen. The fair value of the Group's retained interest in Topsearch Shenzhen of approximately HK\$111,521,000 as at 31 December 2012 had been regarded as cost of investment in an associate from the date on which the Group ceased to have control, and incorporated in the consolidated financial statements using the equity method of accounting. The fair value has been arrived at on the basis of a valuation carried out on that date by Asset Appraisal Limited, a firm of independent qualified professional valuers not connected with the Group. The valuation was arrived on the basis of asset-based approach.

45. SUBSEQUENT EVENT

Subsequent to the end of reporting period, a customer filed a dispute to the Group for a claim amount of approximately HK\$1,300,000 (the "Dispute").

According to legal advice from legal counsel of the Group, up to the date of this annual report, the Dispute is still in the discovery stage and it is premature to determine the probable outcome, responsibility and liability of the Group in relation to the Dispute. No provision has been made in these financial statements in respect of the Dispute.
